The Lieutenants of the staff are compelled to give the unsatisfactory reply that there are no such articles to be obtained in this city, and that the officers must send to Chicago or Nev York to obtain them.

"I cannot account for it." said a young engineer officer at headquarters yesterday, in explaining to a fellow officer that there is not a military tailor in the city. "St. Louis has and a military post here since the Mexican War, but I have not been able to find a place where I can buy a regulation brass button. I cannot find a shoulder strap or military insignia, not an algulet or a plece of military cloth. I have to send away for all of it."

The officers say there will be hundreds of military visitors here during the summer and they will require all sorts of articles of this kind. The merchant tailor who has a military cutter and a supply of personal articles for officers' uniforms will become popular with the army and many visitors at the Fair, it is said.

Captain Thomas Franklin of the United States Military Academy, arrived yesterday and culled on General Bates. He also visited the World's Fair officials. Captain Tranklin is to arrange for the encampment of the West Point cadet batallion at the Fair, beginning May 29.

Major Alfred Todd of the Engineer Corps, was a wistor at headquarters yesterday, en route from his former post at San Francisco to Washington. D. C., where he has been amounted Assistant Adjutant General on the General Staff.

JUSTICE BREWER CRITICISES IMMIGRATION METHODS.

Declares United States Is Sowing the Wind in China and Must Reap the Whirlwind.

Washington, April 25.—In the Supreme Court of the United States to-day an opinion was delivered in the case of Sing Tuck and thirty-one other Chinese persons held for deportation on the order of an Inspector. The men claimed to be citizens of the United States and sued out writs of habeas corpus, claiming that they were entitled to a review of their case by the courts before exhausting the reme dies prescribed by the exclusion treaty of The court did not take this view, but held that Chinamen must pursue the course outlined in the law, exhausting the remedles there provided before applying to the courts. to the courts. The opinion was by Justice Holmes.

Justice Brewer rendered a dissenting opinion, in which he characterized the proceedings of the inspectors as a starchamber process and said that a Chinaman claiming to be a citizen of the United States is entitled to as much protection as an Anglo-Saxon who makes that claim. Justice Brewer said he did not consider it strange that China had denounced the treaty and said that with the growing importance of China that country could be counted upon to show increasing resentment against this country. Having sown the wind, he predicted the United States would reap the whiriwind.

Justice Peckham concurred in the dissenting opinion. The Chinese involved sought to enter the country at Malone, N. Y.

The effect of the decision is to sustain the action of the Inspectors.
